Southern Notes.

The Supreme Court of Louisiana has
adopted a rule limiting the arguments of
lawyers to fifteen minutes.

The funded debt of St. Louis has advanced
during the past ten years from less than five
to fourteen million dollars.

The Hon. James B. Beck of Kentucky has
authorized the Frankfort Post to say that
he will not be a candidate for re-election to
Congress.

The wheat crop throughout the Charlotte
section is looking green and beautiful. The
prospect for a heavy yield is rarely so good
as at the present season.

There is a farmer near Fishing, N. Y., who
owns a Kentucky brood mare that has
within the last thirty days, kicked in seven-
teen barn doors, unroofed a dozen chicken
coops, and trampled the life out of four of
his favorite pigs. He calls it Ben Butler.

Mr. P. B. Pritchard, who arrived in New
Orleans the other night, complacently in-
formed a reporter of the New Orleans Times
that he should remain in the city only until
re-called to Washington to take the Senate-
rial oath.

The Memphis Avalanche and the Appeal
have both abandoned their Monday morning
issue, and now only print six issues a week.
By this means they avoid the necessity of
working on Sunday, and mutually husband
the physical and pecuniary resources of their
establishments.

The Mississippi Legislature adjourned
on Monday. The principal acts of the
session were the establishment of a cen-
tral board to equalize taxation, the repeal of
the mortgage supply lien law and of the
next November funding act, and a bill pro-
viding that unless the Legislature shall be-
fore the end of the session, the Governor
shall have the physical and pecuniary resources of their
establishments.

Near Benton, Florida, is what is known as
the "Cone settlement." It is an old settle-
ment, and is the site of a large plantation
of the extraordinary age of one hundred and
four years. Its site, still living, is only a few
feet from the water. The aged couple who en-
joyed unimpeded good health and content-
ment all their lives, and it has been only within
a few months past that the old gentleman
has given indications of much decrepitude.

The auditor's office in the State of Louisi-
ana must be a hot bed. The New Orleans
Picayune says: "There have been three au-
ditors of the State since the adoption of the
Constitution of 1845. Each of these has been
subjected to criminal and penal prosecu-
tions; two of them have been consigned to
prison, and the last is now before one of our
courts, and will to-day appear to show cause
why he should not be subjected to imprison-
ment or other penalty for a violation of law
and the orders of a court."

There resides near the town of Gilmer, a
worthy farmer, whose hens of late have lost
their reckoning. He informs us that for
seven days one of his hens laid regularly two
eggs a day. At the end of the week he found
his hens went on her nest each day for seven
days, and then came off cackling as if she had
laid, but on examination he found she had
failed to deposit. After seven days of this
foolishness he determined to put a stop to it
by killing that hen. Unlike the man who
killed the goose that laid the golden egg, our
farmer found in his hen one of the most
valuable and profitable members of his fock.
Now, the question arises, what the
deuce is the trouble with "them hens,"

MURDER.

BLOOD IN TWO STATES.

LOUISVILLE, April 10.—John R. Brecken-
ridge, son of the late Dr. J. R. Breckenridge,
was fatally shot at Lebanon, Tennessee,
where he was studying law. The bullet en-
tered his chest and passed through his lungs.
It is feared that the snow will kill fruit.
GALVESTON, April 10.—A large Italian
and Captain of a ship, was killed by some
people's bullets for entering a lady and two
children. A daughter, nearly grown, escaped
and gave the alarm. Arabians were burning
the bodies when the people came upon him.

THE MERCEDES MISSISSIPPI.

HELLEN, Ark., April 10.—Hasevuckany
leaves, near St. Louis, Mississippi, broke
again last night. The break is now one hun-
dred yards wide, and endangers the whole of
the St. Louis and Yazoo River bottoms,
which are among the richest in the Missis-
sippi Valley.

SNOW STORM.

MEMPHIS, April 10.—Snow fell here for
twenty hours.

GOOD.

A VIS CHARACTERIZATION OF THE

SOUTH CAROLINA PLUNDERERS.

WASHINGTON, April 10.—The Tribune of
this morning says that there is now at Wash-
ington a delegation of men from South Carol-
ina charged with the duty of denouncing the
charges by the tax-payers' convention.
This convention sent its representatives
to Washington with a series of charges and
counter charges against the management of
State finances. The aid of Congress is
sought in an attempt to reform the govern-
ment, and save the State from utter bank-
ruptcy. The tax-payers' delegation, if
we may so call them, say that the others are
rebels; that they are not so bad as
represented; that men who thus seek to
bully the mission of the tax-payers' dele-
gation are led by B. F. Whitmore, a sur-
vivor who was expelled from Congress for
selling a commission in the army. They need
to fix the character of the men, it may be
added that the rank and file of them be-
longed to the State Government of South
Carolina, and have been made up
of the worst thieves and plunderers that ever
infested any community. Congress may not
be able to do much for South Carolina, but
the appearance there of such a band of ma-
rshals is a piece of brazen impudence and
unparalleled effrontery.

FATAL EXPLOSION OF A SHIP'S

BOILER—ITALIANS ROB

A TRAIN.

New York, April 10.—Arrived—Hol-
ten. Arrived at Alpha, Parana, Elders,
Garberrie, Mindet, Frodhol, Nellie May,
Czar, Amelia, Hildwig, Ayndale, Maria,
Greenleaf, Trenton, Advance.
New York, April 10.—The following
special dispatch conveys intelligence of a
terrible accident to the steamer Tigres,
which became a well known to the public
in connection with Capt. Hall's ill-fated Ar-
ctic expedition:

St. Johns, N. F., April 9.
The steamer Tigres of the Polar ex-
pedition, while sailing, exploded her boiler,
killing two engineers and twenty of the crew.
The ship is under sail for this port.

The Evening Post says that the railroad
train which killed "audacious" Landing, Staten
Island, at 7 o'clock last evening, was stopped
about two miles out by a band of Italians,
who tore up the track.

The particulars of this outrage have not
been received, save that the robbers seized
the cash box on the train, but were them-
selves soon after arrested and are now locked
up.

FOREIGN.

LONDON ACCIDENT—BISMARCK.

LONDON, April 10.—The boiler of a factory
in Hamilton, near Glasgow, exploded to-day.
A large part was driven several hundred
feet through the air and crashed into a
school house full of children, three of whom
were instantly killed and thirty more or less
injured.

Three thousand colliers are on a strike
in Somersetshire.

A Bismarckian, who writes to the Daily News
represents that the conservatives and ultra-
montanes are actively intriguing to supplant
Bismarck by Manteuffel.

At Berlin, April 10.—There is no foundation
for the report that the conservatives and
ultra-montanes are intriguing to displace
Bismarck.
